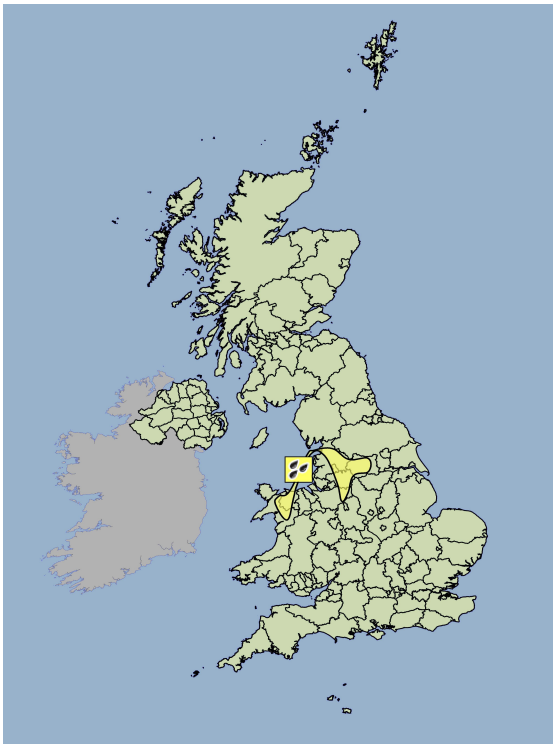
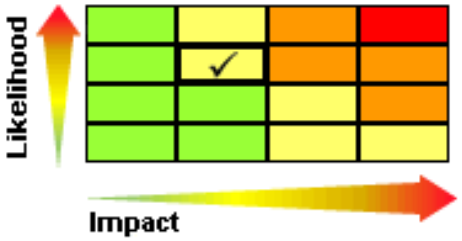
National Severe Weather Warning Service





Chief Forecasters Assessment
An active frontal system will bring a spell of heavy rain to parts of North Wales and northern England during Monday evening and into the early hours of Tuesday with 20 mm of rain falling widely in the warning area and as much as 30-40 mm in upland areas exposed to the strong westerly winds.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **17:00 on Mon, 30th Mar 2015** until **03:00 on Tue, 31st Mar 2015**

Rain will become heavy and persistent over the high ground of North Wales and parts of northern England during Monday evening, before clearing eastwards overnight.

The public should be aware of the risk of localised surface water and river flooding.
